What's your interest for participating in the Award?

What are your Achievements?

What kind of services you provide and how your services are useful or impactful for the society?

Awards are presented by the organizing committee according to the following categories:

The first category is titled "Pioneer Award in Government Artificial Intelligence" for organizations that have made significant contributions to the same field.

The second category recognizes the best organization in the field of innovation and development in artificial intelligence, since it focuses on companies that have developed products based on "Ai and cloud computing".

The third category honors the most secure and reliable artificial intelligence organization

The fourth prize is given for the best artificial intelligence startup.

The fifth prize will be awarded for the best artificial intelligence application.

Lastly the sixth and final award will be presented to the pioneering media organization in the field of artificial intelligence and cloud computing.
